

An Informative Full-Day Virtual Instructor-Led Seminar:

Behavior-Based Safety: Fundamentals and Implementation

1 Who Should Attend . . .

This online seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Behavioral safety is the application of behavior analysis to work, specifically, safe and unsafe performance of a task. Using scientific principles of motivation, systems are analyzed to identify what is motivating safe or unsafe performance. For example, people take safety shortcuts because they are motivated by the certain and immediate consequence of saving a little time and they are not motivated by the fairly uncertain and unlikely consequence of getting hurt. Systems can then be modified or implemented to improve performance in a positive method. Implementation will be discussed with an emphasis on providing examples from companies who have used behavioral safety successfully. **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**

Required Class for
Safety & Health
Management Systems
Level Two
MTI Certificate

Agenda

*We offer a flexible
program agenda
to emphasize the
health and safety
topics you
want most.*

- ▶ Understanding antecedents and consequences of performance.
- ▶ Analyzing the context of performance to develop strategies for change.
- ▶ Targeting performance that is a good candidate for improvement.
- ▶ Developing a behavior-based safety system that works for your company.

Facilitator

Brian Kellogg joined the MIOSHA Consultation Education Training Division in 2010 as a Safety Consultant specializing in general industry and serves the employers/employees in the mid-Michigan area.

Prior to joining MIOSHA he was the Environmental Health and Safety Manager for an industrial air-moving equipment manufacturer with facilities located in Ohio and Indiana. Brian has experience with safety and environmental compliance in fiberglass, fabrication, welding, machine shop, foundry, paint, and assembly operations. He also spent time as an industrial equipment and machine operator. During his years in private industry Brian developed relationships with local first responder agencies, represented his employer in complaints with OSHA, and defended against citations from state and federal EPA.

Brian earned his Bachelor's degree in Environmental Science from Alaska Pacific University in 2002. Throughout his educational experiences, Brian spent time working with Alaska's marine wildlife and participated in research connected to the Exxon Valdez oil spill.

Presenters: Brian Kellogg, Senior Occupational Safety Consultant and Robert Atkins, Occupational Safety Consultant; MIOSHA-CET Division
